In the town of Šeštokai in Lazdijai district municipality, there is an important international railway station where a Russian-wide railway line intersects with a European standard railway line. Major investment projects are planned on this railway section. A freighter railway line to Alytus starts in Šeštokai. Šeštokaj railway station is an intermediate station of the European-gauge railway Rail Baltica. Šeštokai railway station is used for the international train route Kaunas-Białystok. For these reasons, the railway system of Lazdijai district municipality can be assessed as having a high investment attraction and tourism potential.

An important feature of Lazdijai district municipality is the border with two neighbouring states: **POLAND AND BELARUS**
